Re: Memorial Day Weekend Message

As we head into the Memorial Holiday Weekend, we wanted to take a moment to wish you and your families well. Please enjoy this weekend with family and friends responsibly. As you may be aware, the city has opened several miles of public spaces, streets, parks, and beaches (with caveats) in readiness for the weekend.

While the city's numbers continue to decline in all the relevant metrics e.g. hospitalizations, fatalities etc., we want to take a moment to remind you it is important that you continue to follow precautions to ensure the continued safety of you, your loved ones and neighbors.

Please, remember to continue to practice social distancing and use a face mask when unable to maintain social distancing, when leaving and returning to your units or in any of the common areas. Working together as we have, we fully expect the city to participate in the Phase I "reopening" by mid-June – so help us "stay the course"!

Be well and Stay Safe

Charles H. Greenthal Management
